

# 2<sup>nd</sup> INTERNATIONAL CONFERENCE ON COMPLEMENTARY ONCOLOGY

**DGO**  
Deutsche Gesellschaft für Onkologie e.V.  
INTERNATIONAL SCHOOL  
OF INTEGRATIVE MEDICINE

„An Integrative Approach  
for Prevention, Treatment  
and Healing of Cancer“

**15. – 17. June 2012**

Veranstaltungsort:

Deutsche Bank AG

Konferenzräume

Promenadenplatz 15, 80333 München

Organisation:  
International School of Integrative  
Medicine GmbH in Cooperation with  
DGO - German Society of Onkology

## VORANKÜNDIGUNG!

Liebe Kolleginnen, liebe Kollegen,

wir möchten Sie frühzeitig auf diesen Termin hinweisen, damit Sie ihn bei Interesse einplanen können! Sie erhalten hiermit die Eckdaten, Änderungen sind kurzfristig möglich. Die aktualisierten Daten erhalten Sie in Kürze auf der Webseite [www.dgo-info.de](http://www.dgo-info.de). Nähere Auskünfte erteilt Ihnen gerne Herr Urs D. Douwes, Projektmanager der ISIM GmbH, Rosenheimer Straße 6-8, D-83043 Bad Aibling, Telefon +43 (0) 80 61 . 398-124 oder einfach Email an [urs.douwes@klinik-st-georg.de](mailto:urs.douwes@klinik-st-georg.de) schreiben!

Wir würden uns über Ihr Interesse freuen!

REFERENTEN / GUEST SPEAKERS	THEMA / PRESENTATIONS
Dr. med. Friedrich R. Douwes	Begrüßung und Einführung
Prof. Dr. Anna Reichlmayr-Lais, Technische Universität, München, BRD	Warum wir Komplementäre Medizin brauchen
Ralph W. Moss, Ph.D, Cancer Decisions, Lemont, PA, USA	War on cancer. Where do we stand
Nicholas J. Gonzalez, MD PC, New York	Trophoblasts, stem cells and cancer. A special approach for an effective cancer therapy.
Prof. Dr. med. Dan Burke, MD, Leicester UK	Salvestrols - an important supplement by selected blockage of specific targets.
Isaac Eliaz, MD M. S. L. Ac, MD, Amitabha Medical Clinic & Healing Center	Metastases Prevention
Dr. Serge Jurasunas, MD, Lisboa, Portugal	Clinical application of molecular markers: prevention, diagnostic in cancer, targeting therapies – Case studies
Prof. Brian Scott Peskin, Houston, TX, USA	The Prime Cause and (Newly Discovered) Prevention of Cancer Based on Nobel-Prize-Winner Otto Warburg, MD, Ph.D.
Priv.-Doz. Dr. med. Alexander Muacevic, Europäisches Cyberknife Zentrum, München-Großhadern, BRD	Cyberknife: Radiochirurgie-System
Dr. Friedrich R. Douwes, Ärztlicher Direktor, Klinik St. Georg, Bad Aibling	Tumorstroktive Methoden: Hyperthermie, Galvanotherapie; An effective method for elimination of metastasis; Insulinpotentierte Chemotherapie;
Dr. Manfred Haupt, APOCARE Pharma GmbH, Bielefeld	Photodynamische Therapie mit einem neuartigen Farbstoff
Dr. Thomas Neßelhut, Institut für Tumorthapie, Duderstadt, BRD	Dentritische Zelltherapie. Klinische Ergebnisse bei Krebs.
Neil H. Riordan, PhD, Medistem, Chandler, AZ	High Dose Vitamin C infusions in Cancer Treatment
Dr. Bert Steffan, MetaVectum, Hamburg	Chemosensitivitätstest. Dichtung und Wahrheit

On the conference days we will have coffee break, lunch and buffet. On sunday we are planning a round table discussion with a panel of speakers.

Friedrich R. Douwes, MD  
St. George Hospital,  
Germany

„Dear Colleagues!“

**We wish cancer were not so common - not so daunting. But the reality is that there is a desperate need for accurate, true and honest information. Our goal with the 2nd International Conference is to present scientifically substantiated information on integrative cancer prevention and treatment in a practical, useful manner. So you will be able to make informed decisions based on your specific circumstances.**

We understand that the amount of information, the number of decisions, and the implications of those decisions can be overwhelming. This conference and the future ones featured by the German Society for Oncology are here to help.

Because cancer is such an insidious disease, conventional medicine can play an important role in defeating it. Complementary therapies can support those treatments and can also help to offset some of the side effects of conventional treatments. Unfortunately, in the world of cancer care, integrative physicians and conventional oncologists often do not speak to each other, and if they do, they don't seem to speak the same language. It is as if cancer is like politics and there are two different parties ready to fight. The real victim in this game is the cancer patient, who often has to be the moderator between his oncologist and his complementary care provider. When this happens, no one wins the battle, and, in fact, all are harmed.

Although conventional and integrative physicians could be considered to be two separate factions, they are both really fighting for the same goal: healing. After all, there is only one kind of medicine - good medicine.

It is our intention that every cancer patient deserves all possible cancer treatments - conventional and complementary - available to them. It is the responsibility of all their physicians to work together for the better treatment of the patient. Encouraging such collaboration is what this 2nd. International Conference is all about. Divisiveness only undermines the strives we make against this complex and deadly illness. One of the greatest minds of all time, Albert Einstein remarked. 'The significant problems we face cannot be solved at the same level of thinking we were at when we created them.'

All practitioners must open their minds and their hearts and stretch the boundaries of their own convictions.“

Yours sincerely

Friedrich R. Douwes, MD
